## ABOUT ME

Frontend developer with **2** years of commercial experience in creating user-friendly, productive web applications using **React**, **TypeScript** and other modern technologies. Experience in both classic SPA (**React Router**) and SSR (**Next.js**). Confidently working with design, animations, refactoring. Not afraid to take responsibility.

## LANGUAGES

- Ukrainian (Native)
- English (B1-B2 technical and written communication)

## OPEN SOURCE

**React Smooth Flow** – a library for easily creating complex animations. A cross-browser and advanced alternative to the View Transition API.

## EXPERIENCE

### 2 years of commercial experience

#### FRONTEND DEVELOPER — AIROMEDICAL

July 2023 – present

- Developed **10+** reusable UI components with **React**, **Next.js** and **TypeScript**, reducing front-end development time by **20%** for new features
- Optimized legacy components, increasing page load speed by up to **15%**
- Collaborated with backend developers and designers to develop production-ready features delivering **cross-browser compatibility** and **accessibility**
- Integrated own library to reduce the time to create and maintain complex animations by up to **50%** (**React Smooth Flow**)
- Wrote unit tests (**Jest**) for key components

## SKILLS

### LANGUAGES

JavaScript, TypeScript, Python, HTML, CSS, SCSS

### LIBRARIES & FRAMEWORKS

React, Next.js, Zustand, Socket.IO, Electron, Express, Nest.js

### TOOLS

Git, Vite, npm (publishing), Node.js, Figma, DevTools, Lighthouse, Jest, React Testing Library, Cypress, React Scan

## ADDITIONAL

I have experience working as a technical lead for a small indie game development team. I laid out the basic game logic, recruited team members, reviewed their code, and held periodic meets to ensure transparency in the workflow.
